Elfen Energy Chimes are individual hand crafted energy chime bars made in Byron Bay. The wooden base blocks are Australian Silver Ash with a special alloy chime suspended from it, producing a pure silvery tone which resonates for up to 30 seconds.

The sound vibrations emitted by these energy chimes are rich in high frequency harmonics, which research into music therapy has shown to be the healing component of music stimulating the brain and triggering alertness, concentration and deep relaxation.

Elfen Energy Chimes can be used as a musical instrument. The chimes are individually tuned to the chromatic scale of C. Chimes can be purchased individually or a 3 chime chord, a 5 chime pentatonic scale, an 8 chime major or minor scale or the 13 chimes chromatic scale.

Elfen Energy Chimes can also be used as a healing tool for giving a deeply relaxing non invasive sound massage. They are perfect for Feng Shui energy clearing, for focusing the mind in meditation and for realigning our physical and light bodies with the Universal resonance. Also available are Elfen Chakra Chimes in the colors of the rainbow which can be used for chakra balancing, and the Thirteen Tones of Creation from Mayan astrology, designed in Germany specifically for Harmonic Healing.
