Elfen Chakra Chimes are individual hand crafted energy chime bars made in Byron Bay. The wooden base blocks are Australian Silver Ash painted in the colors of the rainbow with a special alloy chime suspended from it, producing a pure silvery tone which resonates for up to 30 seconds.

The sound vibrations emitted by these energy chimes are rich in high frequency harmonics, which are the healing component of music, triggering alertness, concentration and deep relaxation. Because the human ear is the organ of balance as well as hearing, it is connected by nerve pathways to every part of the body. Based on this principle, sound massage has an emotional impact on the listener and is a simple and yet effective way to relax, balance and de-stress.

Elfen Chakra Chimes are tuned to the C major scale, the most widely accepted as the chakra frequencies, although there are several systems. (Please note that alternative systems can be made to order) They can be used for chakra balancing, energy clearing and a deeply relaxing, non-invasive sound massage. The incredible resonance of the energy chimes helps to focus the mind in meditation.

Each chime may be placed on the corresponding chakra or gently moved through the aura. When played together in intuitive combinations, they emit intriguing sound pulsations. These harmonics surround you in a cocoon of sound, causing the atoms in your body to resonate with these vibrations, dissolving the apparent solidness of your physical body and any energy blockages. In this deep state of relaxation, you are realigning both your physical and light bodies with the Universal Resonance.
